With a proven track record in managing deep-tech projects and an interdisciplinary background, I am uniquely positioned for operative roles at the intersection of AI innovation and collective transformation. As a former lawyer, I navigate ambiguity with ease and translate complexity into clarity - designing strategies that serve both human and more-than-human futures.

PROFESSIONAL EXPERIENCES

Futurekind AI fellowship | FELLOW (Remote) 2025 – Present

- Researching the frontier of AI and animal welfare through a first-of-its-kind interdisciplinary program, combining hands-on project work with mentorship from leading experts in AI, ethics, and animal communication.
